

TEE pairwise tie-threshold sweep on the 4,676-battle factorial

Same 30-cell aggregation; only the post-aggregation decision rule changes. Calibrating to Arena's 35% tie rate gives

Wider window catches more battles as ties; meets human rate at delta ~ 0.18.

Orange ring: current delta = 0.05. Blue ring: human-matched delta. Dashed: human tie rate.

AB-only (decisive subset) Overall (ties counted)
